Hospital Neighbourhood News

December 2018

Neighbourhood meetings

If you live or work near the hospital or work in the hospital you're invited to the next neighbourhood forum. This is an opportunity to get an update on the hospital project and talk to the project team.

Wednesday, 12 December 2018

6pm to 8pm

Jersey Employment Trust in Kensington Chambers, 46-50 Kensington Street

Can't make it?

All information from the event will be available at www.futurehospital.je/neighbours.

St Elmo

Planning permission has now been granted for the demolition of the St Elmo building. A new electrical substation will be put in place here. This will power the current hospital and provide power to Kensington Place.

The hospital and Kensington Place requires this substation even if the hospital does not go ahead on the current site. No work will start until after the hospital planning application is approved, and this won't be until the New Year.

Hospital Policy Development Board Report

The Board has now presented its report to the Chief Minister. You can find the full report online. The Minister for Health and Social Services has published his response to the report. You can also find the full response online.

All members of the Board recognise that the current site could deliver the hospital we need. The Board is aware of the urgency of providing a new hospital and that delays will add costs to the project.

Most members of the Board are not assured that the evidence supports the proposal that the existing site be at the location of new hospital. The Minister for Health and Social Services is confident that the approved site for the hospital was properly evaluated.

Both the report and the ministers' response will be considered in due course by the Council of Ministers.
